Personal Statement

I am a passionate and motivated Junior Web Developer with a solid foundation in visual design and front-end web development. While I am in the early stages of my professional journey, I have built my skills through personal projects, practice and continuous learning. I am eager to grow, take on new challenges and contribute to a team where I can learn while adding value.

Professional Experience

Don Bosco Technical Institute 05/2025 – 07/2025
Data Entry Kakuma, Kenya

- Maintained high accuracy and attention to detail while managing and organizing data records.
- Applied strong organizational and analytical skills to review, sort and interpret information effectively.
- Ensured data integrity by verifying entries and following quality control procedures.
- Handled data responsibly to support efficient workflows and reliable reporting.
